First Semester (Fall 2020)

Module 1

Introduction

Faith formation is life-long. The Institute for Christian Formation program is intended to assist each person on his or her spiritual journey of faith with ongoing faith formation. Regardless of the amount of formation one has received in life, our faith formation remains a vital concern, and we can grow closer to Jesus and deepen our relationship with Him each day if we seek to do so. We welcome laity, religious sisters and brothers and priests as students to join our sessions and participate in the formation opportunities provided by the weekly classes focusing on the truths of the Catholic faith. Each session or class will be referred to as an educational “module.” There will be two modules presented on the various Thursdays by an assortment of excellent professors. A schedule of dates is included. In your first session you will learn about the entire two-year program. The professor will walk with the students through the overview of the program. CCC where noted below, refers to the Catechism of the Catholic Church.

The first module will cover the material in the Prologue of the Catechism of the Catholic Church, and will introduce students to the Catechism itself and to other basic sources for learning about the Catholic Faith.

Module 2

The Human Person’s Capacity for God (Natural Theology)

This module will consider how God has already placed within nature itself certain ways that we can come to know His existence and His concern for us. Even so, our fallen condition leaves us in need of His assistance both in order to know Him and His will expressed in nature without error or obscurity. This module will consider the capacity and also the limitations of human language and concepts for coming to know God as he really is. This module will advance through the beginning articles of the CCC up to n. 49.

Module 3

Divine Revelation and its Transmission

Module 4

Sacred Scripture: Two Testaments, One Book

The different “senses” (literal, allegorical, moral and anagogical) will be introduced, as well as the responsibility of the Church for ascertaining and defining the canon (which needs to be defined in this context). It examines the relationship between the Old and New Testaments and the normativity of both for Christian Faith, together with the role of Sacred Scripture in the life of the Church and of Christians. CCC nn. 101-141.

Module 5

What is Faith?

The ecclesial nature of the act of faith, manifest in the liturgical Credo, will be pondered. CCC. nn. 142-184.
